SAMPLE OF FINISHED MASK

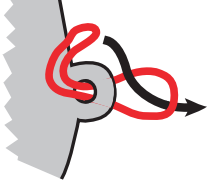

the **INAZUMAN** Mask

PAGE 3 OF 3

Supplies: Scissors, glue, hole punch, two rubber bands

Helpful hint: Print onto cardstock or heavy paper.
This will help the antennae hold it's shape.

1. Cut along dotted lines, including eye holes (A) on the mask
2. Punch a hole in each side of mask (B) & loop rubber bands through holes (see illustration below)

3. Glue left & right antennae from Page 2 onto the mask (cut off any paper sticking out of the star)
4. Cut out star on Page 3 and glue onto mask
5. A sample of the finished mask is on Page 2
